

**The control of the mastering of thematic modules 3-4** (TM3, TM 4) is carried out at the last classes of the study of the content modules. The means of diagnosing students' knowledge are test control using a computer program and the solution of a practical situation with theoretical justification. Only those students who have completed all types of works provided for by the curriculum (spent missing practical classes, etc.) are allowed to control the TM.

<b>Control over mastering the thematic module</b>		
<i>Thematic modules</i>	<i>Minimum points</i>	<i>Maximum points</i>
Thematic module 3	<b>4</b>	<b>9</b>
Thematic module 4	<b>2</b>	<b>6</b>

*The structure of examination paper:*

- theoretical question on knowledge of physical-chemical and technological properties of medicinal substances and their influence on the way of introduction into the composition of medicinal forms;
- 1 practical situational task;
- 20 computer tests.

<b>Evaluation criteria</b>	<b>Points</b>	
<ul style="list-style-type: none"> <li>➤ given a thorough and correct answer to the theoretical question</li> </ul> <p><b>Situational task</b></p> <ul style="list-style-type: none"> <li>➤ without making mistakes, he wrote a prescription in accordance with the current ND;</li> <li>➤ gave a full description of the drug;</li> <li>➤ correctly and fully fulfilled the practical task</li> </ul> <p><b>Test questions</b></p> <ul style="list-style-type: none"> <li>➤ answered 90-100 % of test questions</li> </ul>	6.0	9.0
<ul style="list-style-type: none"> <li>➤ gave the correct but incomplete answer to the theoretical question;</li> </ul> <p><b>Situational task</b></p> <ul style="list-style-type: none"> <li>➤ without making mistakes, he wrote a prescription in accordance with the current ND;</li> <li>➤ gave a non-complete characterization of the drug;</li> <li>➤ made minor mistakes in fulfilling the practical task</li> </ul> <p><b>Test questions</b></p> <ul style="list-style-type: none"> <li>➤ answered 82-89 % of test questions</li> </ul>	5.0	8.0
<ul style="list-style-type: none"> <li>➤ answered a theoretical question with some disadvantages;</li> </ul> <p><b>Situational task</b></p> <ul style="list-style-type: none"> <li>➤ without making mistakes, he wrote a prescription in accordance with the current ND;</li> <li>➤ gave a non-complete characterization of the drug;</li> <li>➤ made minor mistakes in fulfilling the practical task</li> </ul> <p><b>Test questions</b></p> <ul style="list-style-type: none"> <li>answered 74-81 % of test questions</li> </ul>	4.0	7.0
<ul style="list-style-type: none"> <li>➤ answered the theoretical question with significant disadvantages;</li> </ul> <p><b>Situational task</b></p> <ul style="list-style-type: none"> <li>➤ mistakes were made in the prescription of the prescription;</li> <li>➤ gave a description of a medicinal product that does not reflect the characteristics of a medicinal product;</li> </ul>	3.0	5.0-6.0

➤ made minor mistakes in fulfilling the practical task <b>Test questions</b> answered 64-73 % of test questions		
➤ answered the theoretical question with significant disadvantages; <b>Situational task</b> ➤ mistakes were made in the prescription of the prescription; ➤ gave a description of a medicinal product that does not reflect the characteristics of a medicinal product; ➤ made significant errors in the implementation of the practical task <b>Test questions</b> ➤ answered 60-63 % of test questions	2.0	4.0

The amount of points for studying the TM is the sum of the points received by the student during the studying of all topics of thematic modules.
